Is Your Software Adding Real Business Value?

Your retail store's margins are being squeezed on all fronts and departments. Today more than ever as the store owner, you need instant retail accounting solutions, insightful retail trading reports and business intelligence you can rely on. So the question is: Is your software adding real business value? If you are a growing retail store or a group of stores and you wish your software was adding real business value, then invest a few minutes to consider the following:

InstantRetail Accounts (powered by Sage Evolution ERP) gives you a holistic view of your entire enterprise:

- Today you are using an accounting tool;
- Tomorrow you can be doing retail business management on an Enterprise-wide solution platform.

With Instant Retail Accounts you are no longer asking IT or your accountant to render some report to permit your retail-critical business decisions - move to instant retail business intelligence, on a mouse-click. Get business real value instantly.

Why Instant Retail Accounts (by Sage Evolution ERP)?

The retail store owner today needs more than just easy accounts, that is a given. You need instant business intelligence, retail information that permits quick insights extending across all your store departments and across all you group stores - that:

- **Automates & accelerates end-to-end business processes**
- **Accelerates your decision-making with real-time insights (alerts)**

More Bang For Your Buck - Here Is Why:

Make Key Business Decisions - With Evolution's Decision-Friendly Technology

- **Business Alerts** – ensures you capture and are alerted on key pulse-points of your business
- **Advanced Business Intelligence** - have insightful information on tap, on email, anywhere
- **Supplier Recon Manager** – Reconcile un-allocated 'open items' to Spar's DC / Drop-Shipments
- **Claim Dispute Manager** – log and manage your claim disputes; no more excel

B2B Gateway - File Imports Update Your Accounting

- **Sigma supplier transactions import** - PAS7
- **Sigma customer transactions**
- **Customer balances updates to Sigma**
- **Spar DC statement import** - XML
- **Spar Drop-shipment statement import** - XML
